

# INDUSTRY SPECIALIST TEACHING AND KNOWLEDGE EXCHANGE PROGRAMME

**European Union**

European  
Social Fund

*Changing education today  
to provide the skills  
needed in industry  
tomorrow*

## KEY OBJECTIVES

- Working with SME employers in Berkshire to build the skills pipeline of the future.
- Support teachers in the co-creation of curriculum, to ensure hands on experience.
- Allow students opportunity to learn from industry
- Support teachers in better understanding industry and skills needed in the local economy.

## MASTERCLASS

An opportunity for employers to deliver a masterclass that links subjects and topics within the curriculum to provide students with industry insights. Employers are invited to the classroom, either on site, or virtually, to provide students with industry insights.

## COLLABORATIVE PROJECT-BASED LEARNING

An opportunity for employers to design and work with students to deliver a project within vocational subjects in the curriculum. Employers receive full support in designing an engaging project that aligns with a specific unit in the curriculum.

## STUDENT PLACEMENT

Your business works with a student or a group of students over an extended period to develop and accelerate specific skills. This placement forms part of their T Level Qualification

## INDUSTRY INSIGHTS

As an employer you will host a teacher or small group of teachers on site at your business premises for a period of 3 or more days. Teachers are provided with insights into how your business operates and how this is relevant to the curriculum they are teaching.
