1. Introduction

The Windsor Forest Colleges Group (TWFCG) is committed to the principle of equal opportunity for all potential learners at the College and we offer an Admissions service whereby applicants are treated solely on the basis of their merits, abilities and potential, regardless of race; disability; gender; gender reassignment; age; nationality; sexual orientation; religion or belief; marital or civil partnership status; pregnancy or maternity status; or socio-economic status, background or class.

Programmes have differing entry criteria but all require a commitment to, and enthusiasm for learning. This policy applies to all applicants seeking entry to TWFCG onto all programmes of study including, full time, part-time, Higher Education and Apprenticeships, It applies only to external applications new to the college, applicants for students already attending the College are managed internally.

2. Policy Statement and Aims

The WFCG will ensure that all applications are handled individually and will recruit with integrity, placing the best interests and success of the learner foremost in the recruitment process.

This policy sets out the overriding principles relating to Admissions Processes and Procedures at the College as set out below and is supported by detailed entry criteria to be found on the college website and in relevant course publications

The aims of the College Admissions Policy is to outline clearly the College approach, principles and key processes in managing admissions to the College so that these are clear to applicants or others with an interest in such a policy

3. Principles of the policy

3.1 Admissions Criteria

- Every applicant is considered individually using all the information available to us. The College is committed to an admissions process which is easily understood by applicants, transparent and fair.
- The decision to admit an applicant should reflect the meeting of specific entry requirements or equivalent of the relevant programme. Where required by entry criteria applications should be supported by satisfactory references if applicable. Exceptional circumstances can be taken into account.
- Entry criteria where they apply by College, type of provision and or for each course are located on the College Website, in College prospectuses and other key publications. If an applicant does not meet the entry criteria, the College reserves the right to decline an offer of a place on a programme of study at The Windsor Forest Colleges Group.
- An applicant will be taken on to a programme leading to a qualification only where it is confidently and reasonably believed that they have a good chance of achieving the agreed qualification aim. Decisions to admit applicants are taken by the Directors of

Curriculum (or nominated Deputy, for example Head of Department), with responsibility for the substantive qualification of the programme. Directors of Curriculum are responsible for recruiting to the programme with integrity.

- Enabling students to progress through levels of study is key to the College's purpose and commitment in supporting students to succeed whilst both attending and beyond The Windsor Forest Colleges Group
- The College will carry out a timely Disclosure and Barring Service (DBS) check of applicants to certain programmes and in specific circumstances. When a (DBS) disclosure is requested, the outcome will inform the decision as to whether a place is offered.
- The College celebrates diversity and challenges discrimination where we find it and welcome applications from anyone with the potential to succeed. No applicant will be excluded from entry as a result of discrimination on the grounds of age, disability, gender, pregnancy and maternity, race, religion sexual orientation or transgender status. We reserve the right to make decisions relating to appropriateness of admission in connection with the age of any applicant where safeguarding best practice requires the College to do so.
- This policy is consistent with good admissions practice in higher education and its associated procedures have been developed in accordance with the Office for Students Regulatory Framework and the Expectation of the UK Quality Code for Higher Education (August 2018) that:
 - 'The provider has a reliable, fair and inclusive admissions system'. It also takes account of the Office for Students requirement that 'students are recruited to courses for which they have the capability to achieve a successful outcome'.
